

CSCS Training

Introduction

Most Operatives have the required skills to carry out their jobs but an increasing number needs help with getting through the CSCS test in response to this demand, we have put together a Full Day Health & Safety.

What does the course include?

- Covers all modules required for CSCS skills Test.
- Training is through visual aids and tutorials to CITB required standards.
- Home study pack provided and CSCS Card test booked.
- Qualified and experienced Health & Safety provider, with construction Industry delivery experience.

How long is the course?

1 Day

Why do I need it?

The CSCS qualification is an easy and inexpensive way to get access to a wide range of construction jobs where a minimum level of Health & Safety certification is required.

What Qualification do I get?

On satisfactory completion of the course a CSCS site operative card will be issued that will be valid for three years.

What can I do next?

Once you have completed the course it is possible to progress to a five year occupation relevant CSCS card in conjunction with the relevant NVQ.

Where can I train?

The training can be delivered on your site if it meets the course requirements or at one of our three training centres situated throughout the UK.
